

The Dental Group West REPORT

THE BEST COMPLIMENT WE RECEIVE IS THE REFERRAL OF FAMILY AND FRIENDS

*Drs. Richard Dunlap, Tracy Poole,
Richard Thomas, & Robert Weisenburger*

New Faces at Dental Group West

We are excited to announce that three new young ladies have joined the team at Dental Group West. Tara Humbert (left) comes to us fresh out of Ross College in Sylvania where she studied dental assisting along with some business administration electives. She ranked very high in her class. Rachel Chiles (center) joins us with an extensive working background as a business office coordinator and Andrea Parren (right) comes to us as a dental hygienist just graduated from Owens College. All three ladies are doing very well and are a nice fit with our current team and our overall philosophy of practice.

PLEASE "LIKE US" ON FACEBOOK...

Hey everybody, we could use some more traffic on our new Facebook page! Just search for "Dental Group West". There are lots of interesting short dental stories and some fun "before and after" pictures... amazing feats performed by our crack team at DGW!

BON VOYAGE!

Dr. Dunlap and his wife Cy recently left for a Viking River Cruise, a trip they had wanted to take for some time. After over 40 years of practicing dentistry and raising a family, the Dunlaps' will be leaving on another voyage of sorts at the end of this year. Retirement has been announced and will be effective starting January 1st. "Dr. D" will be missed by not only his patients, but by his partners and by his team at D.G.W. as well. We wish he and his family much health and happiness in the years to come.

CHECK IT OUT!

Dr. Tracy Poole is now contracted with Delta Dental Premier. She is now available to see Delta Dental patients to help with availability when Dr. Richard Dunlap retires at the end of December.

DON'T FORGET!

If you have unused dental coverage and you need dental work, schedule before the end of the year so you don't lose your available benefits!

IF YOU SEND A REFERRAL OUR WAY...

WE WILL SEND **THIS** YOUR WAY!

WHO WOULDN'T LIKE THAT?!

JUST HAVE THEM TELL US WHO SENT THEM OUR WAY!

The Dental Group West REPORT

WISDOM TOOTH ALERT

Please remember that if your son or daughter is of high school or college age and wisdom teeth need to be removed, the Thanksgiving and Christmas breaks are popular times to come in since healing time is built in and does not distract from school obligations and activities. Now is the best time to schedule so that spots are reserved before they fill up.

Sport Drinks & Teeth

Sport drinks of all sorts are very popular with active families these days. The kids who play sports love them because they get very thirsty and the drinks taste great. Because they are so popular, they are almost part of the athletics culture that so many families are involved in and we don't think twice about consuming a lot of these products. It is important to know, however, that most all of these drinks contain either sucrose (table sugar), or more typically corn sweeteners (corn sugar). Be sure to read the labels. Avoiding these drinks is best because the sugars that make them taste great can cause cavities, sometimes at an alarming rate. Water is always best, or home made drinks with natural sweeteners like Stevia are also great.
