

COVID – 19 UPDATE, WEDNESDAY, MARCH 18TH, 2020

The Ohio State Health Department has informed us that effective 5:00 p.m. today we, as dentists and hygienists, are to cease all “non-essential or elective surgeries and procedures” for at least the next three weeks (subject to change).

The goal is to prevent spreading the virus, and to conserve masks and gloves for potential hospital needs.

Dental Group West will still be open for the following:

- 1) Emergency Dental Care.**
- 2) Completion of treatment that has been started; for example, root canal therapy or crown and bridge work.**

Those of you with appointments will be called to reschedule as soon as we can. We appreciate your patience. Our goal is to reduce further confusion moving forward. If you call for an appointment, please let us know if you are ill, or if you have been out of the country to either Europe, Asia or any other high risk area.

This situation is naturally upsetting to all of us, but we will do all that we can, within state guidelines, to help you through this unusual dilemma.

If you need us and the office is closed, please remember that the doctors’ mobile numbers will be given at the end of the phone recording. Just leave a message and we will return your call. The office number is 419-539-2168.
